

CT-ICS Observation and Feedback Learning Form

For this model, you will be observed by a Collaborative Teacher or Instructional Coach for the purpose of receiving constructive feedback and support. You will need to identify a learning target or skill to be observed. Below are the steps that will need to be completed:

- ☐ Pre-conference: Meet with CT or ICS to discuss your learning target and purpose
- ☐ CT/ICS will Conduct Observation
- ☐ Post-conference: Debrief with CT or ICS

Your Name: _____

Peer's Name: _____

Pre-Conference

During your pre-conference, you should identify a learning target for your observation. What skill/instructional practice is it that you are hoping to refine through this process? Take a moment to discuss your instructional understandings and philosophies, as well as any literary evidence you may have to support your focus or goal. Briefly summarize what was discussed at the pre-conference.

Learning Target

Please use the space below to identify your learning target for this observation.

Action Plan

What will you take back with you to your classroom? How will you apply your new understandings? How will you address the questions you still have?

Affirmations

What instructional practices were affirmed based on your post-conference discussion with the CT or ICS?

New Understandings

What new ideas and understandings did you and the CT or ICS discuss that you plan to implement or utilize in the future?

Questions I still have/

Understandings I need Clarified

What questions about instruction or your learning target remain?

Post-Conference

Briefly summarize what you discussed at the Post-Conference.

Date: _____
